

Team ID	PNT2022TMID15817
Project Name	Detection of Parkinson's Disease Using Machine learning

### Save Model :

```
pickel.dump(model,open('parkinson.pkl','wb'))
```

The screenshot shows a Jupyter Notebook interface with a dark theme. The top bar of the cell is titled "Save the Model" and includes icons for editing, saving, and deleting. The code cell contains a single line of Python code: `pickel.dump(model,open('parkinson.pkl','wb'))`. The language is identified as Python in the bottom right corner of the cell.
